

Review

A

Brief Constructed Response

Example

1

Anna's mother invited 38 children and 26 adults to Anna's birthday party.

Part A

How many guests were invited in all? Show your work.

$$\begin{array}{r} 38 \\ + 26 \\ \hline 64 \end{array}$$

PART B

Explain how you found your answer. Use words and/or numbers in your explanation.

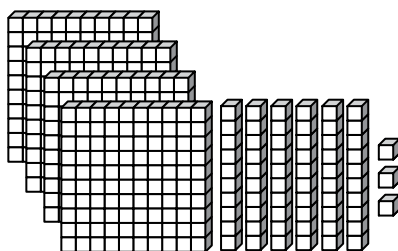

I added the ones: $8 + 6 = 14$. I wrote the 4 and regrouped the 1 ten.

Then I added the tens: $3 + 2 + 1 = 6$.

Brief Constructed Response

2

The number of students at Kennedy Elementary School is represented by this model.

PART A

Write the number represented by the models in word form and standard form.

word form: _____

standard form: _____

Word form is how a number is written using words. *Standard form* is how a number is written using digits.

PART B

Explain how to write the number in expanded form. Write the number in expanded form. Use words and/or numbers in your explanation.

Write your answer in complete sentences.

Brief Constructed Response

4

Mr. Watkins lives 72 miles away from his mother. He lives 44 miles away from his grandmother.

PART A

How much closer does Mr. Watkins live to his grandmother than to his mother? Show your work.

PART B

Explain how you found your answer. Use words, numbers, and/or symbols in your explanation.
